It's an eventful first half of 2018! In celebration of IPAT's 60th anniversary, the **3rd Porcelain Dream Exhibition** was held in March this year to celebrate the occasion and it received many positive feedback. There were over 500 pieces of artworks on display from local and overseas members. Special thanks also to all participating artists from South Korea and Taiwan who specially flew in for the occasion and volunteers for their support and dedication in making the exhibition a huge success.

Earlier in February, members also proudly played a part of the **The Little Basel Art • Connect** which aims is to connect people of Hong Kong through experiencing and sharing their passion for art.
